Technical Datasheet - Premium Paper Labels

Premium Paper Labels - Gloss White

Paper: White, woodfree machine coated gloss
Weight: 90gsm
Adhesive: Aqueous acrylic emulsion adhesive
Minimum application temperature: +5°C
Temperature range: -15°C to +80°C
Chill grade: Ideal for sandwich/chilled food labelling

ADHESIVE
Designed for laminates in a wide range of applications
Very good heat resistance which enables trouble free performance in different hot fusing print processes
Good adhesion to cardboard and low energy (e.g. plastic bags) surfaces
Good 'all round' permanent adhesive
Approved for direct contact on dry and ‘moist’ non-fatty foods
The adhesive conforms to the EN71-3 (Toy Safety) & Packaging (Essential Requirements) Regulations
No heavy metals are used in the manufacturing process and typical contents are less than 1ppm

BACKING
White high density kraft paper with excellent lay flat properties

Premium Paper Labels - Gloss White Removable

Paper: White, woodfree machine coated gloss
Weight: 90gsm
Adhesive: Aqueous acrylic emulsion removable adhesive
Minimum application temperature: +15°C
Temperature range: -5°C to +60°C
Adhesive: Approved for direct contact on dry and ‘moist’ non-fatty foods
Backing: White high density kraft paper with excellent lay flat properties

Disclaimer: Product performance should always be tested in the actual application conditions. We cannot assume any liability for damage caused through the use of our products as they are used in conditions beyond our control.

Technical Datasheet - Premium Paper Labels

Premium Paper Labels - Matt White Recycled

Paper: Matt white, woodfree paper made from 100% Post Consumer Waste (PCW), bleached without chlorine
Weight: 80gsm
Adhesive: General purpose permanent, acrylic based adhesive
Minimum application temperature: 0°C
Temperature range: -20°C to +80°C
Backing: A one side coared, bleached kraft paper
Weight: 80gsm

Conforms to the EN71-3 (Toy Safety) Regulations
No heavy metals are used in the manufacturing process
No animal derived materials used in the manufacture or the formulation of the product
No genetically modified organism (GMO) derived materials used in the manufacture or the formulation of the product
No substances or chemicals known to cause cancer or reproductive toxicity used in the manufacture or the formulation of the product

Premium Paper Labels - Brown Kraft Recycled

Paper: Brown kraft paper made from 100% Post Consumer Waste (PCW)
Weight: 85gsm
Adhesive: High tack permanent acrylic emulsion adhesive
Minimum application temperature: 0°C
Temperature range: -50°C to +90°C
Backing: White high density kraft paper with excellent lay flat properties

Disclaimer: Product performance should always be tested in the actual application conditions. We cannot assume any liability for damage caused through the use of our products as they are used in conditions beyond our control.
